

Brown County Native Woodlands Membership Application

Join the effort!

In 2006 local citizens formed the Brown County Native Woodlands Project (BCNWP) to honor our natural heritage and save it from encroachment by non-native invasive plants.

We invite you to be part of this mission. Become an annual member at \$10 or join as a family for \$15. Additional contributions to support BCNWP's work are also welcome. Your membership helps us to:

Educate

people about the effects of invasive plants on our environment.

Act

to remove invasive plants species in Brown County.

Advocate

the increased use of native plants on public and private land.

Benefits of membership

- Educational field days that focus on invasive plant identification and beneficial native plants
- Informative newsletters
- Invitations to our annual dinner and special programs
- Workdays guided by professionals to control invasive plant species
- BCNWP board eligibility to help plan and organize activities
